NUMBER 21

ALUMNI HEAR STORY OF TRIP TO ANTARCTICA

A. Walker Perkins, Byrd Expedition Member, Is Banquet Speaker

First-hand descriptions of the amount of careful preparatory work that goes into a polar expedition were brought by A. Walker Perkins, Kenosha, to Antioch Township High School alumni at their annual banquet last Thursday evening at the high school. Perkins was a member of the first Byrd expedition to the Antarctic, and is a personal friend of many well known modern explorers.

Covers were laid for 60 at the 6:30 o'clock dinner, which was served by ladies of the Millburn church. After the program dancing was enjoyed, with music by the high school swing band.

Relates Anecdotes

The speaker related interesting anecdotes of his personal experiences on the Byrd expedition, as a "sailor before the mast," a custodian of sledge dogs and a quartermaster in charge of supplies.

He also gave a graphic picture of the business-like way in which the expedition was ordered and conducted, and paid a tribute to the character of Richard Byrd, to become later Admiral Byrd.

Allendale Boys See Shrine Winter Circus

A special North Shore train yesterday carried 101 boys and faculty members of the Allendale Boys' school at Lake Villa to Chicago, where they saw the Shrine Winter circus at the International Amphitheater.

The boys and their teachers were guests of the group of members of the Lake County Shrine club, headed by Fred B. Swanson, Antioch.

Buses were provided to take the boys from the school to the North Shore's Edison Court station in Waukegan.

The boys enjoyed the outing greatly, and North Shore officials commented favorably on the good behavior of the Allendale boys.

The circus is sponsored by Medinah temple as a benefit for its regular fund, from which contributions are made to various charity projects, as those for crippled children, orphans and old folks.

It will continue with matinee and night performances daily through Jan. 15, and features such "headline" acts as Clyde Beatty and his cage of 30 Nubian lions and Bengal tigers; the Six Gretonas, high wire daredevils; Ruth Mix and her congress of cowboys, cowgirls and Indians; the Flying Concellos, trapezists, featuring Antiochette, and the Naitto troupe of Chinese wire aerialists and jugglers.

Automobile Accident Puts Two Girls in Hospital

Adele Miller, Antioch, and Betty Bray, Lake Villa, are in St. Therese hospital, Waukegan, for treatment for injuries received in an automobile accident Tuesday morning on Route 45 near Libertyville. Both girls sustained fractures of the pelvis bone.

Kenneth McNamara, Lake Villa, who was the driver of the car in which they were riding, was attempting to pass another automobile when the accident occurred. His car crashed into one coming from the opposite direction. McNamara was uninjured.

Three Hurt in Automobile Accident at Intersection

Pearl Smith, Antioch, Dorothy Mayerhofer, Genoa City, and Marlene Skinner, Milwaukee, were injured when cars driven by Burnett Smith, Antioch, and Vincent Mayerhofer, Genoa City, collided at the intersection of Route 173 and Gifford road Sunday morning.

Hurt in Collision

Stanley Maciejewski, Jr., and Emily Maciejewski suffered head bruises Tuesday when their automobile collided with one driven by Thomas Gorman, Chicago, on Skokie highway north of Wadsworth road.

Loses to Zion

The Fox Lake Lions' club basketball team was defeated by the Zion Merchants in a game last Thursday evening at the Grant High School gym.

Federal Agents Join Search for Mongoven

Federal agents have joined with Special States Attorney Charles E. Jack in seeking Leo Mongoven, reputed head of the slot machine syndicate in Lake county.

Mongoven's 20-room farmhouse at Bluff lake, near Antioch, was raided last week by Attorney Jack, who is in charge of gambling prosecution in the county. Harry La Bounty or La Bonie, the caretaker, was taken into custody.

The raid yielded an arsenal of 18 guns, including three with defaced serial numbers. All are now undergoing ballistics tests in Chicago.

MILLBURN MUTUAL IN 84TH MEETING

Insurance Association Will Hold Annual Business Session Saturday

The Millburn Mutual Insurance company will hold its eighty-fourth annual meeting Saturday, Jan. 7, at 10:30 a. m. in the Masonic hall at Millburn.

The company is one of the largest and strongest of its kind in the middle west, with more than 1,500 policy holders and a business of more than six million dollars.

Election of officers, reports of the company, and the transaction of other legal business will occupy the meeting.

The dinner will be served by women of the Millburn community.

Salem Mutual
Total losses of only \$533.70 for the past year were reported for the Salem Mutual Fire Insurance company, which held its annual meeting in the Social Center hall at Trevor Tuesday afternoon. The officers reported a cash balance of \$271 on hand.

Woman's Club to Hear Book Review Monday

"All This, and Heaven Too," Rachel Fields' best-selling novel, will be reviewed by Mrs. W. C. Petty for the meeting to be held by the Antioch Woman's club Monday afternoon, Jan. 9, at 2 o'clock in the home of Mrs. E. J. Hays. Assisting hostesses will be Mrs. I. C. Patterson, Frank Powles, P. E. Chinn and John Brogan.

Mrs. Edmund Vos is in charge of reservations for Antioch region members who are planning to attend a meeting of the Tenth District Federation of Women's Clubs on Friday, Jan. 13, at the Georgian hotel in Evanston. The Evanston Woman's club will be hostess.

Mrs. Edward J. Lehman, general director of the Illinois federation; Mrs. Truman F. Creager, vice-president of the northern region; Mrs. William G. Suthers, state legislation chairman, and the presidents of the first eleven districts will be guests of honor.

The morning session, convening at 10 o'clock, will feature music and a talk on "Adult Education as a Safeguard of Democracy." At the afternoon session the Hon. Mrs. Bernice VanderVries, Winnetka, representative of the Seventh Senatorial district in the Illinois legislature, is to give an address entitled, "Government Is Your Business."

Farm Supply Company Pays \$50,000 Dividend

A dividend of approximately \$50,000, equalling last year's, was declared by the board of the Lake-Cook Farm Supply company at a special meeting held in the company's main office at Des Plaines, Ill., Dec. 29. This dividend represents 6 percent on preferred stock, 15 percent on petroleum products and six percent on feeds, seeds and other miscellaneous products.

The company has shown a substantial growth during the 11 years that it has been in operation. It services Lake and Cook county farm trade with a line of supplies including petroleum products, feeds and seeds, and is owned and operated by farmers of these counties.

The date of Jan. 19 has been set by the company for its eleventh annual meeting, to be held in the Masonic temple at Des Plaines at 10 a. m.

Bristol Lutheran Church Welcomes New Pastor

The Rev. E. Hinderer was installed as pastor of the Bristol Evangelical Lutheran church New Year's night at the 7:30 o'clock English service.

A reception was held for the new pastor afterward and a luncheon was served by the women of the church. Rev. Hinderer comes to Bristol from Tappan, N. D.

PARTY IS HELD BY LEGION AUXILIARY

District President Is Guest at Business Meeting, Social Time

Mrs. Otto Klass, president of the Antioch American Legion auxiliary, was honored with a gift of a beautiful compact from the members at the Christmas party Friday evening.

Mrs. Lydia Whyte, Waukegan, the district president, and Mrs. W. E. Steinhaus, also of Waukegan, who is chairman of the junior work, were guests. Mrs. Whyte was called upon for a brief talk, and spoke on topics of general interest to auxiliary members.

The home of Mrs. G. W. Jensen was festive with Christmas decorations for the party. The assisting hostesses were Mrs. George Garland, A. P. Bratrude and William White.

Mrs. Dan Scott was initiated into the membership during the business period.

A gift exchange was a feature and a buffet supper was served during the latter part of the evening.

The next meeting of the auxiliary will be on Friday evening, Jan. 13, in the American Legion hall. Cards will be played after the business period.

Plans are being made by the Antioch auxiliary for participation in the district meeting to be held in Lake Forest in February. Mrs. Jensen will be featured on the program as a singer.

Father of Antioch Man Dies, Aged 82

Kenosha and Lake county relatives and friends of Oscar Swenson, 82, Kenosha, were grieved by word of his death at his home Wednesday morning following a long illness.

Mr. Swenson was the father of Albert Swenson, Antioch; Roy Swenson, Camp Lake, Wis.; Earl Swenson, Spring Grove, Ill.; Herbert Swenson, Elgin, Ill.; Miss Mary Swenson, Kenosha, and Miss Madeline Swenson, Wheeling, Ill. He is also survived by his wife, the former Miss Anna Shostedt, to whom he was united in marriage in September, 1889, and by nine grandchildren. He was preceded in death by two children, Elsie and Ernest.

Funeral services will be held Friday afternoon at 1:30 o'clock at the Hansen Funeral home in Kenosha, with interment in the family plot in Green Ridge cemetery.

Mr. Swenson was born in Regna, Holm, Sweden, Dec. 1, 1856. He came to Kenosha in 1882 and spent the greater part of his life in farming in Pleasant Prairie and Somers townships. Later he was a teamster in Kenosha for many years, and afterward was employed as a night engineer at the Simmons company and the Allen tannery. He moved to Spring Grove, Ill., in 1914, returning to Kenosha after his retirement in 1934.

Bristol Eastern Star Chapter Has Installation

New officers who were installed by Bristol Chapter No. 164, Order of Eastern Star, at its annual installation services were:

Miss Olive Hope, worthy matron; Paul Burgess, worthy patron; Mrs. Madelon Jackson, associate matron; Herman Burgess, associate patron; Mrs. Margaret Maleski, secretary; Grover Massie, treasurer; Mrs. Evelyn Woodbury, conductress; Mrs. Helen King, associate conductress; Mrs. Louella Massey, chaplain; Mrs. Elvira Stephens, marshal; Mrs. Mary Benson, organist; Mrs. Nina Steinbach, Adah; Mrs. Belle Evers, Ruth; Mrs. Eleanor Meredith, Esther; Mrs. Ethel Woodbury, Martha; Mrs. Daisy Chumley, Electa; Mrs. Ruth Feldkanip, warder; Fred Stephens, sentinel.

Miss Frances Price is the retiring worthy matron.

In charge of the installation were Miss Ruth Salm, past worthy matron of Union Grove; installing officer; Mrs. Deborah Lavey, past worthy matron of Bristol; chaplain; Mrs. Grace McVicar, organist.

Mothers' Club Plans Discussion Meeting

"Stand Behind Your Child" is the topic for the discussion at a meeting to be held by the Mothers' club Tuesday, Jan. 10, at 8 o'clock.

Mrs. R. H. Childers is to have charge of the discussion.

The meeting will be held at the home of Mrs. William Matthews on South Main street, instead of at the home of Mrs. L. O. Bright, because of the illness of Mrs. Bright's mother.

"READY FOR HIGH GEAR"

MRS. HELEN MICO, OF BRISTOL, DIES

Sister of Leo J. Carney, Antioch, Passes Away in Kenosha

Services will be held in Kenosha Saturday for Mrs. Helen Mico, 51, of Bristol, who died Wednesday morning at 5 o'clock. Mrs. Mico had been ill for several days and was undergoing treatment at St. Catherine's hospital, Kenosha. On Tuesday evening she suffered a stroke, but lingered until the next morning.

Services will be held from the home of her parents, Mr. and Mrs. James R. Carney, 7406 Fourteenth avenue, Kenosha, to St. Thomas church there.

Mrs. Mico was born on a farm in Newport township, Lake county, May 2, 1887.

Her husband, Robert Mico, preceded her in death in 1923.

She is survived by four children, Eugene, Robert, Clifford and Frederick; by her parents, and by seven brothers and sisters, Leo J. Carney of Antioch; Mrs. M. E. Cafferty, Mrs. Thomas Cavanaugh, and R. A. Carney, Kenosha; Hubert Carney, Milwaukee; and Benedict Carney, Chicago.

Births in County for 1938 Outnumber Deaths

There were 1,715 births and 1035 deaths in Lake county during 1938, a survey of the records shows. The 70 sudden deaths and 32 suicides were nearly double the number of past years.

Traffic fatalities numbered 56. This includes deaths of victims injured in accidents outside of the county. There were 24 drowning cases, three accidental shooting fatalities, three murders, one glider fall and one lightning victim.

Coroner John L. Taylor states that the general belief that there are more fatalities incurred in falls in or about homes than on the highways does not hold true in Lake county. Only 13 died from such injuries.

J. B. Rotnour Troupe to Present Comedy Tonight

"El Rancho Grande," a western comedy that has just been leased to Mr. Rotnour, will be presented by the J. B. Rotnour players next Thursday evening at the Crystal theatre.

This evening the troupe is giving a subtle comedy entitled, "What Anne Brought Home."

The company has played through the holiday season without a night's loss, and has enjoyed excellent business. It will continue to present its productions in co-operation with Antioch merchants, every Thursday evening at the Crystal. Free merchants' tickets may be obtained from any firm listed in the advertisement appearing elsewhere in this issue. Doors will open at 7:30 o'clock, and the curtain will rise at 8:15.

\$38,455 for Relief

A relief allotment of \$38,455 for Lake county was made in a recommendation by the Illinois Emergency Relief commission. The recommendation was made in connection with the allotment of \$3,800,000 in state funds to cover 68.06 percent of the state's estimated January relief costs.

LIST PROGRAMS FOR EVENING SCHOOL CLASSES

Farmers' and Homemakers' Courses Will Open at H. S. Jan. 11

Programs of the Vocational Educational classes which will start at Antioch Township High school Wednesday evening, Jan. 11, have been announced by the instructors, Mrs. Ruby Richey and C. L. Kutil.

The classes, which will be at 7:45 o'clock, will be open to anyone without charge. Registration is not necessary in advance.

Home-making Course

The home-making class will discuss various phases of home activities. The following topics will be discussed if the group desires:

1. Make-over and remodeling problems in clothing.
2. Making of new garments.
3. Color and design in clothing selection.

Foods

- (a) Marketing.
- (b) Planning.
- (c) Preparation.
- (d) Service.

Consumer education

6. Health through proper foods.

Educational films will be shown at some of the meetings which will be of interest to home-makers.

Livestock Course

Mr. Kutil's class will discuss livestock problem as outlined in the accompanying program:

Jan. 11—Establishment, Maintenance and Renovation of Pasture Lands.

Jan. 18—Feeding for Greater Milk Production.

Jan. 25—The Genetic Viewpoint in Livestock Improvement.

Feb. 1—Sheep Raising in the Midwest.

Feb. 8—A modern Conception of Livestock health.

Feb. 15—Pork Production.

Feb. 22—Chick Brooding and Marketing.

Mar. 1—Feeding for Egg Production.

Mar. 8—The Beef Cattle Feeding Enterprise.

Mar. 15—What Should Govern Our Decision as to When to Buy and Sell Livestock.

Mrs. Richey is head of the home economics department at the high school and Mr. Kutil is instructor in vocational agriculture.

Lake County Building Total Reaches \$6,066,000

A grouping of all types of construction in Lake county reveals an eleven-month contract accumulation of \$6,066,000, which is far ahead of the business level at the same point last year, according to a survey made by a manufacturing corporation.

Residential building contracts moved to the level of \$3,404,000 during the January-through-November period. The volume in those months of last year was \$3,007,000.

November residential contracts, here, had a valuation of \$259,000, a short drop from \$267,000, the record for the month in 1937.

This year's non-residential building had a November total of \$926,000. Last year it was \$846,000.

The non-residential contracts recorded in November, by the Dodge news staff amounted to \$132,000. There was a gain of 222 per cent over the corresponding 1937 total, \$41,000.

Heavy engineering construction projects accounted for expenditures totaling \$1,739,000 during the eleven month period. Last year the amount for the same period was \$521,000. In 1938 and 1937, November awards were \$56,000 and \$22,000 respectively.

Wilmot Fire Department Elects Officers for 1939

New officers for 1939 for the Wilmot Fire Department are:

President, Marty Schnurr; chief, John Sutcliffe; secretary, Kenneth Long; treasurer, Louis Rausel; chairman of entertainment committee, Louis Gant.

The department made plans for an annual carnival, to be held July 1-2-3-4.

Guernsey Is Sold to Miller

Antioch, Ill.—A registered Guernsey bull has recently been sold by Joe Todd to William Miller of Mosinee, Wis. This animal is Little Orchard Companion 265472 according to The American Guernsey Cattle Club, Peterborough, N. H.

The Difference

A great many New Dealers, when confronted with the failure of their economic experiments to bring back prosperity, like to alibi themselves by referring to the depressing during the Hoover administration. Yet there is a great deal of difference. When Hoover was President the entire world went to economic disaster and he battled increasingly against a rising tide. The Roosevelt recession came when conditions in the rest of the world were getting better.

Furthermore, Hoover had to battle with an unfriendly Congress. Every act he proposed was willingly viewed with suspicion by a majority in Congress politically hostile and it was impossible for him freely to employ any policy without having it doctored before it went into effect. The case with President Roosevelt is quite different. The Jewell County, Kansas, Republican summed it up well recently in discussing the recent elections when it declared:

"No President ever had so fair a chance to bring prosperity as Franklin D. Roosevelt. Backed by almost every state, given a rubber stamp Congress, supplied with all the money he could spend, give away and throw away, he utterly failed to bring the abundant life or anything that remotely resembled it. He made speeches that were simply wonderful, but a political party cannot live on speeches alone. So that is how it happened."

Here is the difference. Hoover fought a rising tide of world depression and a hostile Congress, yet in the middle of 1932 things were on the mend. Roosevelt basked in popular adulation and the smiles of a rubber stamp Congress and we still have 11,000,000 unemployed.

And here is another difference: Hoover labored under the most adverse conditions in his efforts to stave off "hard times" without a thought of political expediency. How different with the New Dealers! A writer in the American Mercury boldly states that any improvements that have accrued to the good of the American people under the New Deal regime have been purely incidental . . . and that every measure proposed under the present administration has been closely scrutinized for its political possibilities. If any act proposed meant a large block of votes (for the New Deal) such as relief clients, WPA workers, the agriculturalists, such measures were marked by the chief executive as "must" legislation. On the other hand, measures that carried no "political possibilities" were promptly discarded. Is it any wonder that an administration actuated by such motives has failed?

Draw your own conclusions as to the causes of the November election turn.

Americans, fortunately, have not had to live so close to Fascist and Communist neighbors to learn the fallacies of the isms and to discover democracy's virtues. Instead, Americans have had the undistorted picture presented by a free, uncensored press.

Yes, it is good to know that we in America aren't alone in our decision that freedom is still better than any Utopianism yet dreamed of by man.

TREVOR

(written for last week)

Arthur Hartnell and Arthur Bushing attended the inauguration of Governor Heil of Wisconsin Monday.

Mr. and Mrs. Harry Dexter and son were Chicago visitors Saturday.

Mr. and Mrs. Alfred Dahl and son, John, spent Christmas Day with Mr. and Mrs. H. J. Beck, Racine.

Mr. and Mrs. M. Johnson, Forest Park, spent Christmas Day with Mrs. Johnson's parents, Mr. and Mrs. A. J. Baethke.

Mr. and Mrs. Arthur Edgar and Mrs. Irving Elms, Antioch, were Sunday evening callers at the Joseph Smith home.

Miss Ruth Thornton spent the weekend with her mother, Mrs. Joseph A. Oak Park and attended her sister and brother-in-law's Mr. and Mrs. Sullivan's wedding anniversary celebration on Christmas Day in Chicago.

Mr. and Mrs. Joseph Smith were entertained on Christmas Day at the home of their niece and nephew, Mr. and Mrs. Irving Elms, at Antioch.

Mr. and Mrs. William Boersma entertained on Christmas eve for Mr. and Mrs. Paul Ganzlin, Wilmet, and Mr. and Mrs. Art Holldorf of Silver Lake.

Mr. and Mrs. William Evans entertained a family reunion on Christmas Day.

Mrs. Le Allen and daughters spent Christmas with her parents, at a sister's home at Earl Park, Ind.

George Schmidt, Fox River, called on his cousin, Mrs. Champ Parham, on Wednesday afternoon.

Mr. and Mrs. George Higgins were guests of their nephew and niece, Mr. and Mrs. Kernit Schreck, on Christmas Day.

The Willing Workers met at the home of Mrs. Charles Runyard on Thursday afternoon. The ladies exchanged gifts.

Mrs. Stanley Stoxen, Bassett, called on Mrs. Luannah Patrick, Friday afternoon.

Mr. and Mrs. John Holzschuh and Mrs. Johnson were Chicago visitors Thursday.

Mr. and Mrs. Richard Corrin entertained the latter's mother and an aunt from Chicago on Christmas Day.

Hiram Patrick and Sarah Patrick spent Christmas eve with the former's daughter, Mrs. Wm. Kruckmao and family at Burlington. Mr. Patrick remained until Tuesday afternoon.

Miss Patrick, Mrs. Luannah Patrick and Mrs. Patrick were Christmas

The Dies Inquiry

The Dies Committee investigating un-American activities has just concluded four months of inquiry. It has, in that short time uncovered machinations of communism, fascism and other un-American "isms" that are shocking to every thoughtful citizen.

The Committee is now preparing to recommend a five-point program to Congress for dealing with the problem. These points are:

1. Stricter immigration laws, with requirements that aliens entering the country say whether they believe in the American form of government.

2. Strict enforcement of the deportation laws.

3. Regulations that organizations shown conclusively to be un-American, file with the government an accounting of their finances, activities and directors.

4. Outlawing of all such organizations as soon as possible.

5. Regulations that persons who join political organizations use their real names and that lists of such names be available to the government for inspection.

The Committee has accomplished much in exposing anti-American and un-American activities. There is still much work for it to do. Congress should promptly furnish its additional funds.

Rear-Lights for Pedestrians

A little hind-sight is also fore-sight, when it comes to safety measures, believes Alderman E. W. Lancaster, president of the Ontario, Canada, Motor League. He has asked the government there to amend the highway traffic act to force pedestrians walking along highways at night to carry rear-lights.

The Year Ahead

Last week was the last one of the year 1938. Sunday a new year dawned. With it new hope rises—hope that 1939 will be a happier year for all the world and its peoples.

Looking back at the year that has gone to take its place in history's niche, man sees much that he regrets. Looking ahead at the new horizon of hope, he wonders what lies beyond that horizon.

In reality there is only a void beyond. There is nothing awaiting man's arrival. What will be created or transpired beyond that horizon will be achieved by man. Whatever is written in the new chapter of history will be written by him. In other words, 1939 will be just what man makes it.

There can be no better New Year's resolution than to cross this horizon with a determined spirit of good will toward fellow men. If too many people don't break that simple resolution, 1939 will indeed be a happier year for all the world and its peoples.

Mr. Eden's Message

Americans should give a lot of thought to the message Anthony Eden brought to America. And when the thinking process is complete Americans should feel reassured that America is not, after all, the only stronghold of individual freedom.

Mr. Eden's message was simply this: Free government will never fade from the British Empire for the reason that the English know it is far better than any of the totalitarian isms.

The significant and reassuring part of that statement is not in that it suggests defiance of the isms. Rather, it is that England's millions of citizens, living close enough to the ism countries to weigh comparative values, are steadfast to their way above all other systems.

HICKORY

Mr. and Mrs. Curtis Wells attended the funeral of the latter's sister, Mrs. Lill Gaylord at Maywood on Tuesday, Dec. 27. Mrs. Gaylord was accidentally killed in a fall out in Arizona, where she and her husband had gone to visit their sons.

The Misses Betty and May Madsen gave a party for the members of the 4-H Club Tuesday afternoon, Dec. 27, at their home. One feature of the afternoon, a grab-bag, was enjoyed by all. Not all of the girls were present because of the cold weather.

Mr. and Mrs. Gerhardt Lange drove to Waukegan, Wis., on Thursday afternoon and visited relatives there, returning home Sunday. On Friday they attended the funeral of an aunt of Mr. Lange's.

Mr. and Mrs. H. A. Tillotson and Miss Caryl were guests for dinner at the S. W. Ames home near Gurnee on New Year's Day. Miss Caryl remained there to visit for several days.

Mr. and Mrs. George Olsen of Waukegan were dinner guests at the Max Irving home New Year's Day.

Mr. and Mrs. Homer Edwards and small son, also Miss Pearl Edwards, left here on Friday on the return trip to Wayne, West Virginia.

Mrs. Hilda Wilton and sons were guests at the home of Mr. and Mrs. Frank Shonshack at Bristol on New Year's Day.

Mrs. George Ryckman and son, George, Jr., Mrs. Frank Salisbury and son, Richard, of Waukegan visited the Max Irving family Thursday afternoon.

Miss Marion Cook of Waukegan was home over the week-end. Miss Sophie Georgi of Kenosha was a supper guest at the H. A. Tillotson home Saturday.

Mr. and Mrs. Roy Heydecker and son of Waukegan visited the John Crawford home, Monday afternoon.

Mrs. O. L. Hollenbeck of Millburn called at the W. D. Thompson home Saturday afternoon.

Mr. and Mrs. Nels Gussarson from Wooddale and Mr. and Mrs. Wilbur Hunter and Russell and Jerry from Mundelein were guests at the Hugo Gussarson home on New Year's Eve.

Mr. and Mrs. Hugo Gussarson and family visited relatives at Alonquin on Monday, Jan. 2.

LAKE VILLA

Lake Villa Com. Church (M. E.)

I. B. Allen, pastor

Sunday School — 10 A. M.

Worship Service — 11 A. M.

Sunday school will be resumed next Sunday after a three weeks' vacation because of various reasons, and those working for pins as well as others will want to be there. Any new children living in the community and surrounding territory are welcome to attend.

The theme for next Sunday's sermon, at the worship service will be "The God of 1939." This will be a discussion to help us all to understand God better.

There was no church or Sunday school last Sunday when the overheated furnace caused a timber over the furnace to catch fire. The slight damage done by the fire is being repaired this week and will be finished before Sunday. The prompt action of

the firemen saved the church from further damage, but the building was so full of smoke that no service could be held.

Two new electric fans have been installed in the heating system so that the church will be comfortable and warm during the services.

Mr. and Mrs. G. Ekdahl and Mr. and Mrs. Carl Ekdahl were guests of friends at Franklin Park on New Year's Day.

Clearance, smart felt hats, values to \$4.95, now 98 cents. Marianne's, Antioch.

Sidney Stackler and family and friends of Chicago spent the New Year holiday at the Stackler home on Cedar Lake.

Mr. and Mrs. Lester Hamlin spent Monday in Chicago.

We are very sorry to report the illness of Mrs. Irving Barnstable who has diphtheria at her home which is again in quarantine. Mrs. Lottie Barnstable is caring for her.

Arthur Thayer of Lake Geneva, Wis., visited his mother, Mrs. Louise Thayer, four days during the Christmas holiday.

Miss Aileen Kapple was the guest of friends in Waukegan at dinner on Monday.

Mrs. James Leonard and Mr. and Mrs. Edward Leonard entertained Mr. and Mrs. C. Hendee, Mr. and Mrs. Anthony Leonard and children of Round Lake and Mr. and Mrs. Fred Hodgkins and children at dinner on New Year's Day.

Wm. Sheehan's very ill and in St. Therese hospital for treatment. Little Barbara Joan Fawcett is suffering from an attack of tonsillitis at the home of her grandparents, Mr. and Mrs. L. J. Tweed.

Miss Dorothy Anderson of Chicago spent a part of her holiday vacation with her grandmother, Mrs. James Leonard and her cousin, Betty Reinbach, and returned to her home Saturday.

Dress Clearance, values to \$10.95, now \$1.95, \$2.95 and \$3.95. Marianne's, Antioch.

Mr. and Mrs. Ray Kerr and Miss Helen returned to their home at Three Lakes, Wis., last Sunday after having spent the holidays with relatives here.

A Telephone Rang in Illinois!

A telephone rang in Illinois, and a mother talked with her son. A farmer heard the price of corn, a merchant wrote an order, cheering news from a hospital eased an anxious mind—a telephone rang . . . and touched a thousand lives.

Good telephone service is one of the essentials of modern life, and the telephone business is conducted on that understanding. The 23,000 men and women who work for the Illinois Bell Telephone Company do so with a sense of public responsibility. Their tradition is to give you service that is courteous, dependable and cheap in price . . . in fact, the best telephone service in the world, at the lowest possible cost.

ILLINOIS BELL TELEPHONE COMPANY

WILMOT

The Young people of the Holy Name church are sponsoring a card party at the Wilmot gymnasium for Sunday evening, Jan. 8. The usual games will be played and refreshments will be served.

The Rev. John Finan was at Paris for the day Monday with the Rev. J. O'Keefe.

Mr. and Mrs. Paul Ganzlin had as New Year's guests Mr. and Mrs. Fred Boulden and Mr. and Mrs. Harold Boulden and family from Burlington.

Three tables of cards were in play New Year's Eve at a belated house warming honoring Mr. and Mrs.

Herbert Sarbacher. A luncheon was served.

Mr. and Mrs. Fred Harm, Spring Grove, Mr. and Mrs. Albert Miller and son and Mr. and Mrs. H. Frank and children spent New Year's with Mr. and Mrs. William Harm.

There will be a business meeting of the Mothers' club at the school Tuesday evening at 8 P. M.

The Rev. H. J. Diehl of Lake Geneva will conduct English services at the Peace Lutheran church Sunday morning at 9:30.

The Wilmet Graded schools opened on Tuesday, Jan. 3, and the U. F. H. school on Wednesday, Jan. 4, following the Christmas holidays.

Mr. and Mrs. David Kimball were entertained New Year's day by Mr. and Mrs. Ray Bufton.

Three tables of cards were in play at a New Year's Eve party given by Erminie and Grace Carey. Luncheon was served at midnight.

Anna Kroecke entertained New Year's Eve and New Year's for Mr. and Mrs. Jacob Kroecke, Mr. and Mrs. Carl Hagen and Walter Hagen, Milwaukee, Judge George Kroecke, Mr. and Mrs. George Kroecke, Jr., and Robert Kroecke of Madison.

New Year's dinner guests of Mr. and Mrs. Lloyd Stoxen were Mr. and Mrs. Henry Brinkman, Mr. and Mrs. Austen Stoxen and family, Salem, Edith and Mayme Mitchell, Bristol.

PETER COMMENDED AND REBUKED

LESSON TEXT—Matthew 16:13-23.
GOLDEN TEXT—Thou art the Christ, the Son of the living God.—Matthew 16:16.

"What think ye of Christ?" This question, which was asked by Jesus Himself (Matt. 22:42), is the touchstone that tries men, and churches, organizations, and movements. The answer to it determines character, condition, and destiny. As we study the life of Peter and see how he responded to the question of Jesus, let us not fail to apply the truth to ourselves and to those to whom we minister. This is indeed I. A Crucial Question (vv. 13-16).

With His crucifixion now only six months away our Lord in preparation for it is about to make a more definite claim to Messiahship, and thus to establish the truth in the minds of His disciples. He therefore asks this all-important question about Himself.

First, it is a general query, "Whom do men say that I am?" The answer (v. 14) indicates that the common opinion concerning Christ was a very high one. He had made an impression on the people of His time, and this has been true down through the ages. Even those who do not believe on Him admit that He was "the ideal representative and guide to humanity," or the person before whom "everyone would kneel." But beautiful tributes to His character and leadership are worse than meaningless unless they lead to a personal confession of Him as Lord and Saviour.

The question becomes personal as He asks, "Whom do ye say that I am?" That question no one can escape. We cannot refuse to answer. Neutrality is impossible. Whatever we do or say, or do not do or say, is a decision.

Peter's answer is really the sum and substance of Christian doctrine. He recognized Him as the Messiah, the fulfillment of all Hebrew prophecy, and as the Son of the living God, the Redeemer and Savior of men, the One in whom centers all Christian faith.

II. A Divine Revelation (vv. 17-20). Peter had been ready to be taught by the Holy Spirit, and therefore made a confession of Christ which was not conceived in the mind of a man but was a conviction born of the Spirit of God (cf. I Cor. 12:3).

Upon Peter's confession, which was thus really a divine revelation of the person and work of Christ, the Church is established, Christ Himself being the chief cornerstone (I Pet. 2:7) with Peter himself as one of the apostles built into its very foundation (Eph. 2:20).

Note that Christ calls it "my church." It is His Body, and He is the Head rules over it. The gates of Hades, that is, the wicked powers of the unseen world, while they now seemingly have great power against the Church, shall not ultimately prevail. We have a victorious Christ.

The giving of the keys, and the authority to bind or loose have been variously interpreted. It would seem to be clear, however, that this was not intended to be any personal power to be used by Peter, and quite evidently not to be transferred by him to others. It was rather the authority to admit men into the kingdom of God as they fulfill His provisions for entrance, and to declare that those who do not enter by way of Christ must be forever barred from its sacred precincts.

III. The Shadow of the Cross (vv. 21-25). The cross of Christ casts its shadow over the little group as Jesus begins to show to His disciples (v. 21) what He is to suffer as the Saviour of the world. The city of Jerusalem exulted to heaven by its opportunities and privileges is to be the place where He is to be nailed to the tree. "Where roses ought to bloom, sin has often planted thorns." Peter in an outburst of affectionate folly tries to hinder Christ from going to the cross, and becomes for the moment the servant of Satan. He "meant well," but it is not enough to have good intentions.

The cross of Christ calls for the cross of the Christian (v. 24). Note well that this does not refer to little acts of so-called "self-denial," but rather to the denial of self. It means that self-will is set aside and God's will becomes paramount in the life (v. 24). It means the abandonment of selfish motives and desires, the losing of life for Christ's sake. Thus only do we find the real fulfillment of life (v. 25).

For God to Decide There are those who say, and that continually, that life is too short. That depends. What are you doing with it? For some things it is; for others it is not. In any case, it is not for us to make any declaration on that point. God knows whether it is, or is not, too short. And it is safe to leave that matter with him, Christian Conservator.

TREVOR

Dr. Fletcher of Salem, made a professional call in Trevor Monday morning.

Mrs. William Kruckman of Burlington spent Monday with her father, Hiram Patrick.

Dress Clearance, values to \$10.95, now \$1.95, \$2.95 and \$3.95. MariAnne's, Antioch.

Gerald Runyard spent the past week in Madison.

Romayne Schenning, Burlington, visited a number of days with her cousin, Ruth Elfers.

NOTICE

Dec. 27, 1938

Annual Insurance Meeting
The Annual Meeting of the Millburn Mutual Insurance Company will be held in the Masonic Hall, Millburn, on Saturday, January 7, 1939, at 10:30 A. M., to hear reports of the Company, for the election of officers and the transaction of other legal business.

News of ANTIOCH and Vicinity

Leaving on Trip to California, Mexico

Mrs. Chase Webb will leave Saturday on a conducted tour to California. From there she will go by boat to Acapulco, Mexico, and on to Mexico City, where she will spend two months visiting her son, E. Morley Webb.

Mrs. Webb's birthday anniversary will occur during the trip, on Jan. 18, and she is to be honored by the tour managers with a party in Los Angeles.

Today Mrs. C. B. Smith of Chicago is holding a bon voyage party in the Congress hotel, Chicago, for Mrs. Webb.

This is by no means Mrs. Webb's first visit to Mexico, for she has made three or four previous journeys there. Last March she returned here by motor, and is believed to be the only woman ever to have made this journey alone.

"It is just 2,450 miles from my front door to Mexico City!" Mrs. Webb declares.

FAMILY DUTIES SUMMON BRIGHTS TO FOSSLAND

Mrs. L. O. Bright is still at Fossiland, Ill., near Champaign, where she was called on Christmas Eve by word that her mother, Mrs. G. A. De Long, was seriously ill with pneumonia. Mrs. De Long is reported to be recovering now, but Mrs. Bright will remain with her for a short time.

Mr. Bright was recalled from Fossiland early this week by his duties as principal at the Antioch Township High school, which resumed its classes Monday after the Christmas week vacation.

While at Fossiland, however, he attended the golden wedding celebration of his parents, Mr. and Mrs. E. W. Bright, on New Year's Day.

ANNOUNCE ENGAGEMENT OF JANE M. WARRINER

"Some time in June" is the only date set for the marriage of Miss Jane McVey Warriner, daughter of Dr. and Mrs. Winsor W. Warriner, Antioch, and George Page Scully, son of Mr. and Mrs. John C. Scully, Peoria, whose engagement was announced at a luncheon here recently. Both of the young people are students at the University of Illinois, and are home on their vacations. Miss Warriner is a member of Alpha Phi sorority and Mr. Scully is affiliated with Alpha Delta Phi.

HONORED AT METHODIST AID SOCIETY MEETING

Mrs. Ella Ames' birthday anniversary, which falls on Friday, was the inspiration for a birthday cake and candles with which she was honored at a meeting of the Antioch Methodist Ladies' Aid society Wednesday afternoon.

The meeting was held at the home of Mrs. H. B. Gaston, with Mrs. W. C. Petty as assisting hostess. Fifteen members were present.

WED AT GENOA CITY FIFTY YEARS AGO

Mr. and Mrs. Charles Harrison, Waukegan, who were united in marriage on New Year's Eve, 1888, in Genoa City (then Genoa Junction) celebrated their golden wedding anniversary with a family gathering at their home Saturday evening.

ANNOUNCE ENGAGEMENT OF DAUGHTER

Mr. and Mrs. N. O. Nelson of Indian Point have announced the engagement of their daughter, Ruth Ona, to Leroy E. Anderson of Kenosha, Wis.

Dancing Recital to Be Held at Wilmot Jan. 14

A combination dancing recital and floor show will be held in the Wilmot gymnasium on Saturday evening, Jan. 14 at 8 P. M. Several professional acts from Chicago will appear in collaboration with dancing pupils of Bessie Baril, of Chicago. Spring Grove, Ringwood, McHenry, Solon Mills and Richmond, Ill., are represented by this group of pupils.

Louise Lucano, modern dancer and talented exponent of the expressive use of hands and arms in dancing, will present her "Rhythms of the Rumba," Mexican and modern dance routine.

Miss Ruth Dennen, talented and comely prima donna, will sing several songs of her own selection and will lead the Spring Grove girls in a beautiful parade number.

Collaborating with Mrs. Baril will be Marie Kruse of Richmond and Elsie Benish of Spring Grove, Ill. Mrs. Kruse will be represented by several of her elocution pupils, and Mrs. Benish will play several violin selections as will her pupil, Ardy's Hegeman, Wilmot.

The program will include finished and unfinished routines, as a preview will be given of numbers being readied for a summer show.

The program will begin at 8 p. m.

CHRISTIAN SCIENCE CHURCHES
"GOD" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, January 1.

The Golden Text was, "Thus saith the Lord the King of Israel, and his redeemer the Lord of hosts: I am the first, and I am the last; and beside me there is no God" (Isaiah 44:6).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "I am the Lord: that is my name: and my glory will I not give to another, neither my praise to graven images. Sing unto the Lord a new song, and his praise from the end of the earth, ye that go down to the sea, and all that is therein: the isles, and the inhabitants thereof. Let them give glory unto the Lord, and declare his praise in the islands" (Isaiah 42:8, 10, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God is infinite, the only Life, substance, Spirit, or Soul, the only intelligence of the universe, including man. Eye hath neither seen God nor his image and likeness. Neither God nor the perfect man can be discerned by the material senses" (p. 330).

Business Guides

By C. E. Johnston

Director, Business Training Schools,
International Correspondence Schools

A MAN who plans to open a business for himself, if he wishes to have a reasonable assurance of success, should be a student of business and possess some business experience. He should also have specific knowledge of the field he plans to enter. Many persons who do not have these qualifications attempt to compensate for their deficiencies by employing trained and experienced managers. While it is possible to succeed by this method, hired brains rarely take the place of knowledge on the part of the business owner. This is a good point to keep in mind.

Any man who is starting a business should realize the great importance of a good name. He must decide how his business can best be sold to the public. If the enterprise has to do with the manufacture of a product, a reputation can be established through reliability of the product. The reputation of a business that has only a service to market, however, may depend solely upon the quality of the work performed by its employees for customers. Some of America's great businesses were founded by men who had little business knowledge to begin with, but not one such house was built on a doubtful reputation.

It is obvious that today the success of a new business depends on three essentials: A knowledge of business principles, an understanding of the field in which the enterprise is started, and a reputation for honest dealing.

Personals

Dress Clearance, values to \$10.95, now \$1.95, \$2.95 and \$3.95. MariAnne's, Antioch.

Mr. and Mrs. H. B. Gaston and Mr. and Mrs. Howard Gaston and daughters, Joline and Judith, were guests of Mrs. Elizabeth Behler, Woodstock, Monday.

Miss Phyllis Mount, North Main street, was hostess to a group of friends at a New Year's Eve party at her home.

Mrs. Henry Pape is in Chicago where she was called by the illness of her mother.

Mary Lou Sibley who was home from Rockford college to spend the holidays with her parents, Mr. and Mrs. N. E. Sibley, was the guest of a classmate Thursday at Villa Park.

Miss Martha Hughes, Waukegan, was the guest of Miss Belle Hughes here for several days last week.

Mr. and Mrs. W. R. Williams are planning to leave next week to spend the remainder of the winter in Melbourne, Fla.

Mr. and Mrs. George White and sons spent Monday with Mr. and Mrs. L. J. White, Waukegan.

Mr. and Mrs. G. R. Bicknell were host and hostess to a number of their friends at a New Year's Eve party at their home.

Mrs. Isa Henry and daughter spent the holidays in Chicago, where they visited relatives.

Mrs. William Gray, Jr., entertained the members of the Larkin club at her home Wednesday. The club now has 10 members.

Miss Evelyn Van Patten of Chicago spent the Christmas and New Year holidays here with her parents, Mr. and Mrs. J. H. Van Patten.

Mrs. E. C. Scheibe of Antioch was among those in attendance at the marriage of Miss Lucille Margaret Scheibe, daughter of Mr. and Mrs. R. R. Scheibe, Burlington, to Donald F. Dunham of that city last Thursday afternoon in the Methodist Episcopal church there.

Friends and relatives in the Antioch region were among those who sent messages of congratulations to Mr. and Mrs. John L. Briery, well known Burlington, Wis., couple on their golden wedding anniversary, Christmas Day.

William H. Sheehan, Lake Villa, is a patient at St. Therese hospital, Waukegan.

Clearance, smart felt hats, values to \$4.95, now 98 cents. MariAnne's, Antioch.

Mr. and Mrs. R. S. Winship spent the Christmas holidays with their daughter and husband, Mr. and Mrs. D. W. Parmelee, at DeMoines, Iowa. Mrs. Parmelee is the former Romona Winship. Her parents returned to their home here at Indian Point Saturday.

Mr. and Mrs. Glen Waller will leave Sunday for an 18-day vacation trip in Florida. Miss Dorothy, Raven of Evanston and Bert Waller of Richmond will accompany them. They will return to re-open their Sunshine Beauty shoppe here about Jan. 26.

Mrs. Louise Gilbert, Chicago, Mr. and Mrs. J. C. James and Mrs. Anna Kelly were guests of Mrs. Ida Osmond on New Year's Day.

Mr. and Mrs. B. J. Corbin and children of Cross lake are spending several weeks with Dr. and Mrs. J. Corbin, Sr., at their home in Lakeland, Florida.

Marengo Woman Fails to Attain Century Age Mark

Mrs. Margaret Ellis, oldest resident of Marengo, Ill., died last Thursday evening at the age of 99. She was a step-mother of Arthur Ellis, Salem, Wis.

Mrs. Ellis, who would have been 100 years old this coming April 3, came to Illinois from New York state with her parents 82 years ago, and the family at first lived in a log cabin. Four of her five brothers fought for the cause of the Union in the Civil War.

Born Margaret Wallace, she was united in marriage March 16, 1867, to James Ellis, who preceded her in death many years ago.

Use of the Steel Rail
Railroads in this country began to place steel rail in general use about 1867.

ENTER 61st "NEW YEAR" TOGETHER

Sixty "new years" have been faced together by Mr. and Mrs. Charles Barthel of Antioch, who are now entering upon their sixty-first year of wedded life. Mr. and Mrs. Barthel observed their sixtieth wedding anniversary on Christmas Day with a family reunion at their home.

THE OLD SHIRT NEEDS MENDING

Business Guides

By C. E. Johnston

Director, Business Training Schools,
International Correspondence Schools

MODERN business is largely conducted on credit. The manufacturer allows wholesalers and jobbers time in which to pay for what they buy, the latter in turn ordinarily do not demand immediate payment from retailers. The extension of credit allows many business transactions to take place that would not otherwise occur. It, therefore, increases the number of sales and thus makes possible a greater production of commodities.

In spite of the frequency of credit transactions there is a widespread misunderstanding of the nature of credit. Credit passes from the debtor to the creditor, from the buyer to the seller, and never in the opposite direction. Few people realize this. We frequently hear such statements as "Mrs. Blank found it annoying to pay cash for her daily purchases, so the grocer gave her credit," or, "Mr. Citizen asked for credit at his clothier's and the clothier was glad to give it to him."

As a matter of fact Mrs. Blank and Mr. Citizen did not receive credit. They possessed it to begin with, otherwise they could not have purchased goods without paying cash. They parted with a portion of their credit when they bought goods from merchants with promises to pay in the future. The customer offers credit, and the seller accepts or declines to accept credit. This is true in all credit transactions, large or small. The debtor redeems his credit, or that part of it with which he has parted, when he pays his bill.

At a dealer realizes clearly that credit is an attribute of the buyer, he will be more able to elze up the credit standing of a customer, and he will, therefore, have fewer losses from bad debts.

Loan and Lend

"Loan" is properly used only as a noun, while "lend" is the verb; as, "I lent him (or will lend) him the money." "He asked me for a loan." The expression "money to loan" is correct, "to loan" being properly a noun (verbal) with the preposition "for" understood but not expressed.

Siege of Paris Balloons
During the siege of Paris in 1871 there were 64 balloons sent up with 91 passengers, 354 pigeons and 3,000,000 letters.

Sunshine, Air Make Flowers
Sunshine and purity of air are responsible for many of the brilliant colors of flowers.

FOR THE Social Season AHEAD!

Cats Without Tails

Cats without tails are a popular breed on the Isle of Man. Other unusual characteristics of the felines is the fact that they have larger eyes and longer back legs than the ordinary cat. Their owners claim they resemble rabbits in the way they sit on their haunches. They are more high strung than ordinary house cats and do not readily make friends with strangers. But they are more affectionate when they become acquainted. The cats also disprove a popular theory that the tail is necessary as a means of balancing, because they are just as agile as other species.

"Go West, Young Man"

According to an authority, the expression, "Go West, young man," was used by John Babson Lane Soule in an article in the Terre Haute (Ind.) Express in 1851. Horace Greeley was attracted by the expression, and used it in an editorial in the New York Tribune. As the saying "Go West, young man, and grow up with the country," gained popularity, Greeley printed Soule's article, to show the source of his inspiration.

Name Chloe of Greek Origin

The name Chloe, of Greek origin, means "blooming" or "verdant." It was the summer name of Demeter, the Greek goddess of agriculture and poets have often used it as a name for a shepherdess or rustic maiden. St. Paul mentions a Chloe of Corinthia. Although pretty and melodious, Chloe has never been in common use and no prominent bearers of it have been found in the archives of history.

Small Island in the Pacific

Cocos Island, on which, according to legend, pirate treasures are buried, is a small island in the Pacific ocean, off the coast of Colombia, and contains 10 square miles of lofty, forest-covered mountains and furrowed valleys. The republic of Costa Rica claims title to the island.

Names of Early Steamboats

Here are samples of the names given early steamboats plying the Ohio: Comel, Bonanza, Bostona, Fleetwood, Daniel Boone, Valley Belle, Joan of Arc, Maid of Kentucky, Tecumseh, Simon Kenton, William Penn, Magnolia, Belle Creole, Vesta.

The IMPORTANCE of EYESIGHT

The eye and other organs of the body are intimately connected through the nervous system. Therefore, impairments in the visual apparatus may be responsible for disturbances in other organs of the body. Many conditions are aggravated and actually caused when the eyesight and movement of the eye muscles are not in harmony. The greatest amount of good can be achieved by examining children in early life and correcting any existing eye troubles.

Cloque Is Magic Word in Fabrics

There's Nothing Smarter for Immediate Wear.

By CHERIE NICHOLAS

Let your fashion "first" this fall be a daytime dress of some one or other of the new cloque weaves. There is nothing smarter for immediate wear. Some of the raised designs stand out as if sculptured. For the most part the new cloque frocks are simply fashioned with the intent that fetching costume jewelry be worn with them.

A novelty is a new material called cross-dye cloque. It is woven in two colors so as to give the effect of printed design. For the conservative black foundation gown, select a cloque weave. It will undoubtedly carry a convincing style message no matter how simply the dress is made.

High-Hatting It

Hats are tall. Hats are diminutive. Hats are spectacular. The tall cuff hat shown below in the picture takes on a flattering softness done in golden honey-colored suede. The small crown is dark brown to match the short sleeved bolero of sheared beaver. The towering arrangement of feathers on the hat, centered in the trio is typical of a new fashion trend. At the top a high cone-shaped hat interprets a leading trend. Narrow strips of black suede are interwoven to form the whole hat. A wisp of veil softens the lines. Note the stunning gold costume jewelry she wears.

Costume Jewelry Is Rage for Fall

According to the signs of the times we are to wear more costume jewelry than ever this fall and winter. The new jewelry is anything but conservative. The trend is toward massive types. Some of the pins and clips and pendants are enormous. Dangling effects are the newest and apparently least design is the favorite motif. Earrings are conspicuously in the picture.

There is also a revival of cameos and such oldtime stones as garnet, amethysts and so on. The new high headdress calls for fancy combs and the jewelry counters are displaying them in endless variety.

Tie-Girdles and Sashes in Favor

One of the distinctive styling treatments is the use of tie-girdles and sashes and ribbon bow ties for fastenings. You will see this movement throughout costume design.

Cloth coats have cravat ties of self fabric or flat fabriclike fur at the neckline. The new streamline full blouses have self ties at throat and at waistline.

Evening gowns display novel sashes some of which tie directly in front with long streamers. It is truly a season of fluttering bow fastenings and versatile tie treatments.

Style Notes

Copper is stressed in new metal effects.

Lumber-jacket suit is the big news for fall.

New styles feature quaint high Victorian sleeves.

Velveteen princess frocks are selling to the teen-age.

Hoopskirt petticoats are worn with full-skirted party frocks.

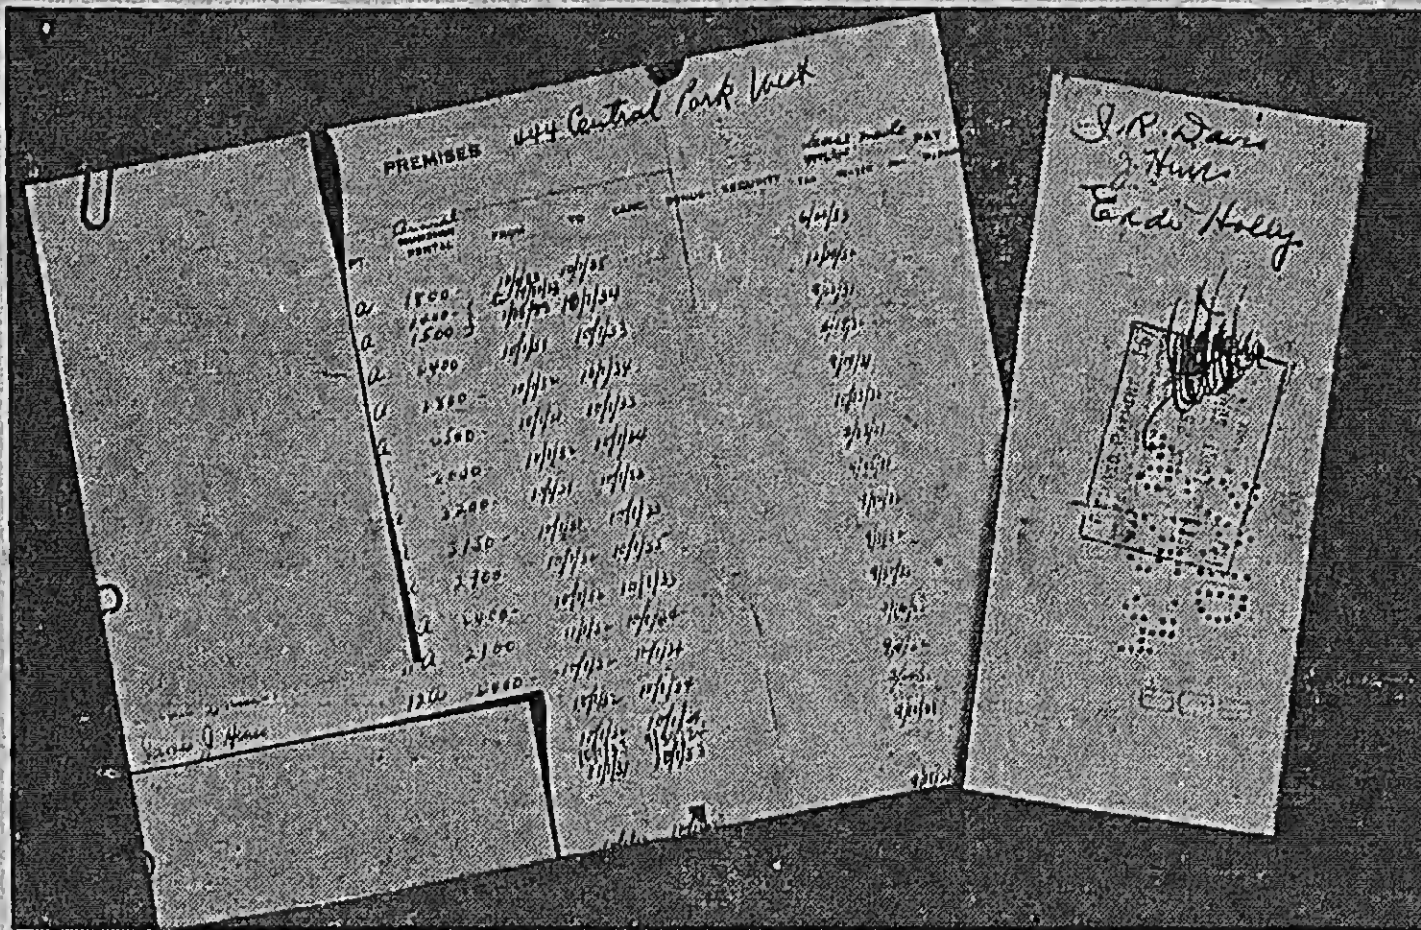

With soft tailored tweeds wear wood jewelry and wood buttons.

Costume jewelry accents leaf theme and huge dangling godgets.

Angora knit "cuddly" sweaters also, boleros come with matching angora hats.

Violets are pinned to suit lapels to accent importance of violet color schemes.

Rent Sheet and Check—Will They Convict?

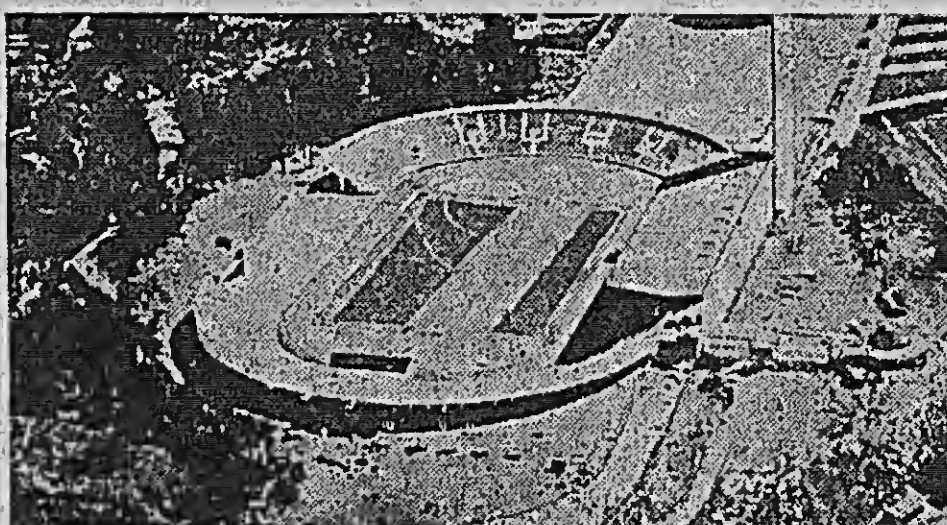

Here are two pieces of evidence to be submitted in the retrial of James J. Hines, alleged conspirator in New York's lottery racket, which opens Jan. 23. The rent sheet, left, purports to show that Hines did not live in a certain apartment building at the time "payoff" checks were delivered to him there. The check, which first bears an endorsement by J. Richard (Dixie) Davis, lawyer for the late Dutch Schultz policy gang, also carries a signature, J. Hines. The defense, fighting District Attorney Thomas Dewey's case, claims this is not Hines' signature.

Balkans Plan New Boundaries

Immediately following Yugoslavia's election Dec. 11 international observers saw indications that border territories lost by Bulgaria after the World war will be returned, in exchange for which Bulgaria will join the Balkan entente to oppose Germany's "drive to the southeast." Territories to be returned include: (1) a small strip of Rumania; (2) three small zones from Yugoslavia; and (3) an area near the Aegean sea from Greece. Member nations of the Balkan entente are surrounded by heavy border on above map.

U. S. Accepts Finn Olympic Bid

The United States Olympic committee accepted Finland's invitation to the 1940 Olympics at a special meeting held in New York Dec. 5. Photograph shows the new Olympic stadium at Helsinki, Finland, where games will open July 20, 1940.

4 STEEL FACTS in one minute

Steel Rails Last for Many Years
Steel rails last a long time. They average 15 years in service, but some rails laid half a century ago are still in use.

Four Ironmasters Signed Declaration of Independence
Four of the 56 signers of the Declaration of Independence were ironmasters: George Taylor, George Ross and James Smith of Pennsylvania; and Stephen Hopkins of Rhode Island.

Nine Out of Ten Steel Workers Are Citizens
Ninety per cent of the employees of the steel industry are American citizens; 70 per cent were born in this country.

Bricks for Steel Could Make a City
The steel industry uses about 394,000,000 fire bricks and 146,000,000 tons of refractory cement in an average year.

If You're Planning To Build

By W. S. Lowndes
Director, Schools of Architecture and Building
International Correspondence Schools

A CHARACTERISTIC feature of American dwellings is the porch, which occurs in one form or another in many residences. Porches form sheltered places in which to sit in pleasant weather. They also may be enclosed as sun rooms which may be used as sitting rooms in cold weather, for breakfast rooms or for sleeping porches. In some cases they are heated by steam or hot water. Fireplaces are sometimes installed. If you are planning to build it would be wise to give considerable thought to this feature. Make it fit your needs and contribute to the utility of your home.

In this day of sun worshippers the home-builder should be especially concerned about such matters as the sun porch. It is usually an enclosed porch with special furniture. It differs from an ordinary room in having two or more sides formed of windows. The builder's taste in interior decorations usually has full sway here.

The doorway or main entrance to a house is important. It may add character to a home, and in some styles of architecture, such as the colonial architecture of the United States, the finish of the building is quite simple, while the design of the principal doorway may be elaborate. Doors are constructed of a variety of different materials and are used in various ways. The doors of an average residence are generally made of wood, or wood and glass. You can exercise good judgment or display poor taste in selecting doors for your home.

CONVENIENCES—A telephone booth is a desirable feature in a house today. There is apt to be too much noise in the front of the average home and when this is not the case and your house is located in a quiet street, a booth is still a decided convenience.

A vault is another desirable feature to install in your home. Such a feature can be large enough to accommodate silver, pieces of plate, jewelry and other valuables.

Clothes chutes are installed in many homes today. By means of this device clothing may be dropped from the upper stories directly to the laundry room in the basement or cellar. It does not cost a great deal more in your building plans and the steps saved are considerable. Naturally, when soiled linens can be handled in this manner it makes for a more sanitary household operation. The busy housewife will appreciate the savings in time.

Do not overlook the importance of installing plenty of electric outlets. These should be provided for electric irons, egg-beaters, fans, toasters, heaters, refrigerators, stoves, vacuum cleaners and numerous lights. There should be a good light at the kitchen sink and in large homes another over the stove. Lights should be so arranged that they will reveal objects in the deep interiors of closets when the doors are opened.

The Klondike

The Klondike is a more or less indefinite district in Yukon territory in northwestern Canada. It borders on Alaska and lies chiefly south of the Klondike river, which flows into the Yukon from the east at Dawson City.

First Jewish Community
Pernambuco, or Recife, in Brazil, was the seat of the first real Jewish community in the New world, some 600 Portuguese Jews coming there from Holland in the year 1642.

Hessian Troops Totaled 29,867
The total number of Hessian troops who fought for England in the Revolutionary war was 29,867.

Eiffel Tower Erected in 1889
Eiffel tower was erected as a feature of the Paris exposition of 1889.

Use Toys to Teach Tots Safety Rules

Miniature Cities Set Up in Ohio Playgrounds.

MANSFIELD, OHIO.—Nearly 500 pre-school age children were taught traffic rules during the summer by driving toy automobiles in the streets of miniature cities laid out on playgrounds.

Traffic Patrolman Fred C. Beals of the Mansfield police department and a playground instructor, Betty Braden, supervised the unusual traffic education program.

"The children now have a thorough understanding as to the meaning of the 'stop,' 'caution' and 'go' signals of traffic lights because miniature streets' traffic was regulated by small lights," Beals said.

"Although the children could not read—they were from 4 to 6 years old—they know now the meaning of traffic signals and of white lined pedestrian lines."

He said that he and Mrs. Ruth Robins, a kindergarten expert, devised the system to train the child at an early age in the principles of road safety so that these principles would eventually become automatic with him.

"The program works along the same lines as the beginner in school learns to write," Beals said.

"After he is taught the fundamentals of writing, he practices it until it becomes a thing that is guided by his subconscious mind."

Miniature cities were set up on six Mansfield playgrounds and one on a Shelby (Ohio) playground to carry out the traffic education program. One group of children were the pedestrians and another group drove the toy automobiles.

Beals said that the children who received this traffic training and who entered school this fall know how to cross streets safely on their way to and from school.

Marital Quarrels Over Tobacco in Past Shown

WASHINGTON.—Women's use of tobacco may cause marital strife in the Twentieth century, but it was the men's smoking that caused trouble in the Sixteenth century, books on display here reveal.

The collection of 3,500 volumes—some dating back to the Sixteenth century—was owned by George Arnets of New York, whose family has been interested in tobacco commerce and culture for three generations.

Arnets spent years collecting fine copies of all books referring to the weed that the Indians taught white men to use.

While men praised tobacco as the "holy herb" and "jovial weed," the women, the collection showed, frowned on the "fume suckers," that threatened marital happiness.

In "Tobacco Tortured," a wife pleaded with her husband to stop smoking.

"Oh, husband, my husband," she wailed, "mine only husband. Consider, I beseech thee, thy dear, thy loving and thy kind-hearted wife . . . Why dost thou so vainly preferre a vanishing filthie fume before my permanent virtues . . . Hav not I here brought forth an armie of children unto thee?"

Woman Leads as Trapper Of Predatory Animals

EAGLE PASS, TEXAS.—The record of trapping more mountain lions than any other person employed in the eradication of predatory wild animals by the Texas Predatory Animal Control association during the last fiscal year is held by Mrs. Bessie Kennedy of Eagle Pass. She has for her territory Maverick county, bordering the Rio Grande.

During the last 12 months Mrs. Kennedy has captured eight mountain lions, 154 coyotes, 40 bobcats, and many smaller predatory animals, according to C. R. Landon, district director of the association. She sets and looks after the traps herself.

Her husband also is one of the most successful trappers employed by the association. His work, however, is less difficult than that of his wife, because he is assigned to patrol a woven wire enclosure containing about 6,000 sheep. He captured during the year five mountain lions, 04 coyotes, and 26 bobcats.

California's First Jail

Was Vessel, Records Show
SACRAMENTO.—Only historians remember that California's first prison consisted of a ship anchored off Point San Quentin, in San Francisco bay, back in 1852.

Old records in the state house brought this strange fact to light in connection with the early history of San Quentin prison, the penitentiary for first offenders on the north end of the bay.

For five years after the American occupation, California had no fixed penal laws or penal institutions. Local jails were scarce and the large ranches maintained their own adobe guardhouses for their lawbreakers. Cross-road justice from the nearest tree in the early gold days seemed effective and sufficient.

After several years of leasing out prisoners to farmers, the legislature selected a site for a prison in 1852 and a prison ship was anchored until the buildings would be erected. The ship held 30 to 50 men.

World's Largest Ice Field Found

Stretches Over 235 Miles in Alaska and Yukon, Expedition Says.

WASHINGTON, D. C.—Discovery of what is believed to be the world's largest ice field and glacial group outside the polar regions has been announced in dispatches from Bradford Washburn, leader of the Harvard university-National Geographic society expedition to Alaska.

"Heads of the Martin river and Miles glaciers are also connected to the long icecap reaching from Cape St. Elias, in Alaska, to the Alsek river valley, in Yukon, discovered on our flight of August 20," Mr. Washburn wired to the society's headquarters.

"On a spectacular flight which circled Mount Logan and Mount St. Elias, second and third highest peaks on the North American continent, the expedition made aerial photographs of an unexplored area of southeastern Alaska, to be used later in mapping," the report to the society continues.

"This flight over icebound fastnesses, previously unvisited by man, reveals that the Bering glacier and the Malaspina glacier, whose known extent had already won for them the titles of the world's largest non-polar rivers of ice, are merely two overflows from a vast highland ice field shrouding a stretch of Alaska about 235 miles long, equal to the distance from New York city to Washington, D. C.

Long Laid Unseen.

"Explorations of the Harvard university-National Geographic society expedition have outlined a coast range of mountains, stretching from the Copper river valley above Cordova, Alaska, to the Alsek river valley in Canada's Yukon, which walls in a mighty reservoir of ice. Completely hidden behind the mountain wall, the mammoth outcrop of ice has lain unseen and unapproachable, its size to be guessed only from the tentacles of glaciers it has clamped around the coastal range. Largest of the numerous streams of ice overflowing from this giant ice bowl, cupped high among peaks two and three miles above sea level, are the Bering and Malaspina glaciers—30 and 50 miles wide, after they have broken through the mountain wall and ground their way down almost to the sea.

"In a single flight of discovery over Alaska's newly revealed ice giant, the expedition saw more ice than is known in all the famous glaciers of Europe put together."

Summing up Washburn's reports and commenting on their significance, a bulletin from the National Geographic society says: "Photographing 1,500 square miles of territory, the expedition found (1) new ridges in the coast mountain range, (2) new glaciers between the range and the Chitina river 50 miles farther inland to the north, and (3) a glacier system uniting the Bering and Malaspina giants with the Seward glacier in the southeast and with the Miles glacier in the northwest.

Difficulties Encountered.
"Most of the newly discovered ice bowl lies athwart and to the west of the Alaska-Canada boundary line, just where it turns due north to the Arctic ocean. In surveying this frontier, famous as one of the longest straight-line borders ever marked, some of the difficulties in running the line along the 141st meridian were due to the eastward overflow of glaciers from the then unknown ice field. The massive glacier bowl pours its slow and irresistible flood across the border southeastward, between Mount Logan and Mount St. Elias, into the Seward glacier, which in turn adds its congealed volume to the great Malaspina.

"The great glacier system explains why there is no land communication between the southern 'panhandle' of Alaska, containing the capital, and the major portion of the territory to the north. The land link is 'broken' by a glacier barrier of more than 200 miles of perpetual ice.

"The Malaspina glacier is so extensive that it was not recognized as a glacier until 1880; rocks and soil cover the ice around the edges, and forests take root in the ice-borne earth. It is a composite ice stream formed by about a dozen coalescing glaciers, the largest of which is the Seward.

"When the new glacier system is mapped, there is little doubt that Alaska will be confirmed as the world's largest stronghold of the ice age outside the polar regions."

Ohio Map on Call

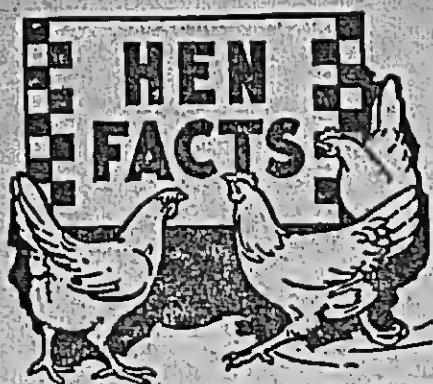

RAVENNA, OHIO.—A Jersey cow born near here had on its forehead a white patch closely resembling a map of the state of Ohio.

Squirrel Vanquishes

Hoot Owl in Battle

NEW BRITAIN, CONN.—Few gray squirrels survive a battle with their natural enemy, the hoot owl.

Veterinarian John P. McIntosh, however, reported a furious fight during which the squirrel, although badly damaged, managed to slay the owl. McIntosh doctored the squirrel back to health.

Mature hens will stand considerable cold if they are dry, so should not be shut in too tightly to conserve animal heat. Instead, protect them by insulating the walls and ceiling of the poultry house. Insulating will keep the house warmer in winter, and cooler in summer.

A high feed intake is essential for best egg production. A laying bird normally eats from six to seven pounds of feed per month—four to five pounds of which goes to maintain her body. If she can be made to eat an extra half-pound per month by the use of electric lights, wet mashers, or Layena checker feeding, it goes into extra egg production.

A new dust spray for the treatment of colds and roup is rapidly becoming popular with flock owners. Called Chlorena, it's sprayed over the birds while on the roosts at night. It causes sneezing, which expels the accumulations of mucus from the upper respiratory tract. It's obtainable at any store handling Purina feeds.

Invariably, houses with high ceilings are cold, damp houses. Lowering them with a layer of insulation about 6 1/2 feet above the floor is recommended.

Five to six gallons of drinking water daily to each 100 birds is essential to a flock of layers. In summer, the water should be cool and fresh; in winter the drinking fountains should never be allowed to freeze.

Usually it's best to have some sort of rack on which to set the drinking fountains. This gives the birds a place to stand while they drink. Also, it provides drainage for the water that drops from their wattles and beaks.

The number of eggs a hen lays is largely determined by the feed she gets. When she gets grain alone she lays only a few eggs. But when that grain is helped out by a carefully blended, balanced laying mash or when a complete all-mash laying ration that's fortified with the necessary vitamins and minerals is fed, she lays many eggs.

Proof of this is the average of the figures sent to Purina Mills last year by the owners of over a half-million hens fed Purina laying mashes. These hens averaged 185 eggs per year, which is more than double the national 82-egg average estimated for the country as a whole by the U.S. Department of Agriculture.

One hundred hens give off from 6 to 11 quarts of water each day as vapor in their breath. Proper ventilation removes this water from the house by taking the moisture-laden air out above the heads of the birds. The distance the moisture-laden air must travel should be kept to a minimum. If too far the moisture in the air will condense and drop back into the house.

Birds must be comfortably housed and well cared for if they are going to ring up a profit for their owner. Expensive equipment is not necessary, however, and often it is possible to remodel old buildings to make satisfactory laying houses. Plans for the remodeling of old buildings into any one of three types of laying houses are obtainable for the asking by writing Purina Mills, St. Louis, Missouri.

Common red mites are one of the worst enemies of a laying flock. These are found around roosts, in cracks, on dropping boards and in nests. When discovered, the laying house should be cleaned thoroughly and sprayed with a solution of one-half pint of Cresofec and one quart of kerosene in one gallon of water. Every crack where mites are likely to hide should be thoroughly sprayed. The birds should be kept out of the house until the spray is completely dried.

Certainly the old saying—"an ounce of precaution is worth a pound of cure"—was never truer than when applied to the poultry industry. The best insurance against disease in the flock is to follow a strict sanitation program which will prevent most outbreaks before they start.

Often a little extra "push" is all that's needed to start a flock of chickens to laying. A stimulating tonic for this purpose has recently been introduced, called Nik-Tonik. Six pounds of it are enough for one hundred birds. Where a laying mash and scratch grain are fed, six pounds of Nik-Tonik are mixed in 100 pounds of laying mash; where an all-mash ration is fed, six pounds are mixed in 200 pounds of the mash. As soon as the one hundred birds have consumed the specially prepared mash, their regular laying mash is given them.

New NYA Hospital Library Service Brings Daily Cheer For Shut-Ins

Ann Seley, NYA girl, reading a juvenile story to Bobby Boyd, youngster confined to hospital. Inset shows Miss Julia Taylor, aged patient who also enjoys daily visits of youths on their rounds of new reading service.

DECATUR, ILL.—(Special)—Bedridden hospital patients whose long hours of confinement offer little to occupy their minds now enjoy a library service complete even to story reading for the infirm, under an improved plan recently introduced in Illinois by the National Youth Administration.

Three types of service are offered in six hospitals located at Joliet, Decatur, Litchfield and East St. Louis. With continued co-operation of public libraries, it is planned to further extend the service, according to Lawrence J. Schmidt, acting state NYA director.

The first type of service provides for book trucks, which are wheeled to the rooms periodically each day, offering a wide selection of reading matter to patients who are able to read for themselves. The frequency of the truck circulation depends upon the demands and the size of the hospital.

The second service, an extension of the first, provides not only the book but the reader for those whose infirmities make it unable for them to do their own reading. An NYA youth, carefully chosen for his or her qualifications, functions as reader.

A third refinement, recently adopted, is designed specifically for young patients who are not confined to their rooms. The NYA youth in charge holds periodical story hours at which juvenile fiction is read, stories are narrated, and children's pictures are exhibited.

The NYA plan originated when a survey showed that only a few hospitals in the state provide library services for patients. Most hospitals either lack facilities or financial means for supplying the necessary personnel for the reading service now performed by the NYA youths.

"Leading a dog's life" is no longer the sad affair it used to be, according to A. H. Leonard, head of the Dog Department of Purina Mills, who believes that modern scientific research has made it possible for our dogs to receive a more complete diet than many human beings enjoy.

"The dog is very exacting in his vitamin requirements," says Leonard. "He needs plenty of vitamin A to strengthen the linings of his nose, throat, and lungs against respiratory infections. He needs vitamin B, the newly discovered food element, that encourages a healthy hair growth. He needs vitamin D, the sunshine vitamin, to protect him against rickets and poor bone structure. All of these should be included in the ration given our dogs."

Puppies are fond of chewing anything that suits their taste. They do this for two reasons—to relieve the pain of teething, and for the sheer love of playing and biting. This latter desire can be curbed by showing your pup that chewing is wrong and results in scolding and pain. Every time he is caught tearing into something he should not touch, he should be slapped with a rolled newspaper and spoken to in a gruff tone. Discipline must be consistent. The puppy will never learn what you want him to do if he is scolded one time and laughed at and petted the next. He must understand every time he is wrong.

Between 5 and 6 weeks of age the milk teeth come in and at 4 months they begin to loosen and fall out. Teething is painful and the puppy wants to chew something hard. Purina Dog Checkers are fine at this time since they keep him interested, and at the same time teach him correct eating habits.

No Diet for Hawaii's Ruler

The original menu for the coronation of Kalakaua, the last king of Hawaii, indicates he was not on a diet. The official dinner was in the Iolani palace, now the territorial governor's office. The menu included three soups, six varieties of fish, in addition to crabs and lobsters, seven kinds of roasted meat, two curries, potatoes, peas, corn, spinach, seven wines, six desserts, fruit, liquor, and beer.

Caviar Old Table Delicacy

Caviar was known as a table delicacy as far back as the Sixteenth century as is evidenced by Hamlet's "His play . . . pleased not the million, 'twas caviare to the general."

Olympic Oysters Productive Olympia oysters in Puget sound produce about 250,000 to 300,000 young to a brood.

MICKIE SAYS—

Our Three Nervous Systems

Man has three nervous systems. The central nervous system, which consists of the brain and its associated fibers that extend to all parts of the body, is particularly associated with the sense organs and muscles. The autonomic and sympathetic nervous systems are associated with the internal organs and processes which operate themselves without aid from the other nervous system. These two systems bear the same relationship to each other as the gas pedal and the brakes on an automobile. Normally these actions balance each other.

Ships Have 'Sweethearts'

Ships as well as sailors have a "sweetheart" in nearly every port, says Collier's Weekly. Known as the ship's husband, the "sweetheart" is the gentleman who, as a representative of the owners, attends to the provisioning, repairing, entering and clearing of the vessel while it is in port.

Just One of the Troubles

"One of the chief troubles in this life," said Hi Ho, the sage of Chinatown, "comes from the fact that when you tell people falsehoods they are liable to be interested, and when you tell them the truth they are liable to get angry."

Names for the Tuna Fish The fish known as a tuna in the Mediterranean and California is a tunny in the British Isles, while in the Atlantic coastal waters of the United States it is a great albacore or horse mackerel.

Solving Problems

THE world today is faced with many problems—social, economic, financial, political, physical and mental. Harassed humanity looks this way, then that, for some remedy for its individual and collective difficulties. Too seldom does it find a satisfactory solution. Yet it is a divinely scientific fact that for every problem there is a right solution.

The first chapter of the Holy Scriptures states (Genesis 1:1, 31): "In the beginning, God created the heaven and the earth. . . . And God saw every thing that he had made, and, behold, it was very good." And to the New Testament, John declares of God (1:3), "All things were made by him; and without him was not any thing made that was made." Do we believe these Biblical statements? Do we motivate our daily activity by this standard? John's clear vision enabled him to see "a new heaven and a new earth" (Revelation 21:1). May not each individual, in a degree, attain this pure perception? And as men attain this understanding, is it not certain that world conditions will improve?

"Theoretically, that is true," admits the earnest inquirer, "but how shall we proceed to bring about an effectual change in human thought?" Mary Baker Eddy, in the Christian Science textbook, "Science and Health with Key to the Scriptures," gives a succinct reply (p. 318): "The material senses originate and support all that is material, untrue, selfish, or debased. They would put soul into soul, life into life, and doom all things to decay. We must also see this life of material sense with the truth of spiritual sense; and, also (p. 293), "Spiritual sense, contradicting the material senses, involves intuition, hope, faith, understanding, fruition, reality."

Certainly, since the Bible statements in relation to creation are true, and Christendom generally admits that they are, then whatever is not good is not authorized by God, and is therefore not true. To realize this fact is to prove it true in one's own experience. In proportion as it is understood, one may utilize it to the exclusion of any discordant argument or circumstance, just as one rejects a statement that two and two is five when he knows that it is four.

Nehemiah, while living in comfort and security himself as cup-bearer to the king of Persia, heard that his people were in sore straits. Having asked divine guidance, he obtained permission from the Persian king to return and rebuild the walls of Jerusalem. After the work was begun, many were the suggestions of material sense as to lack of numbers, authority, strength, and ability, but Nehemiah steadfastly refused to come down from his God-given work to parley with false arguments, and the wall was completed. For, says the record (Nehemiah 4:6), "The people had a mind to work." So will the defenses of the world today be strengthened in proportion as those with spiritual vision work without ceasing in the cause of righteousness and peace.

The primary problem of the world today is to gain an understanding of God. When men can be induced to give attention to this endeavor, they will find world problems being solved as naturally as are problems in mathematics when the right rules are applied.

God is Love. With love as the leading motive in the world, what would become of war? Does anyone wish to kill a beloved friend or to deprive him of anything? And as men know God, the loving, all-powerful Father-Mother, giving liberally of good to all, what becomes of unemployment? The problem is solved as one expresses whatever of good lies within his present opportunity. As his right activity increases he will find not only that he himself is of more and more help to others, but also that others are more and more gratefully helpful to him. Thus will the world's varied difficulties be diminished and finally overcome.

Christ Jesus the Way-shower, has given us the perfect example in loving service, in his overcoming of the world. . . . Though there may be frequent overturnings, "God is working his purpose out," as the words from a hymn declare, and those not mesmerized by the world's mistakes made in the effort to solve its problems, are joyously advancing and aiding in the true solution. . . . The Christian Science Monitor.

New "First Families" Take Office

New governors prepared to take office in 13 states immediately after the new year began. Four of them include Culbert Olson of California, left; William Vanderbilt of Rhode Island, shown with Mrs. Vanderbilt, upper center; Arthur James of Pennsylvania, shown in lower center with his daughter, Miss Dorothy James; and Raymond E. Baldwin of Connecticut.

Landon Among U. S. Delegates to Lima Parley

Alfred M. Landon of Kansas, 1936 Republican presidential nominee who has pledged support of President Roosevelt's foreign policy, is among 12 delegates who attended the eighth Pan-American conference which opened Friday, December 9, at Lima, Peru. Other representatives pictured here are (upper row) R. Henry Norweb, American minister to the Dominican republic; Secretary of State Cordell Hull; (lower row) Laurence A. Steinhardt, ambassador to Peru, and Leo S. Rowe, executive director of the Pan-American society. Defense of the western hemisphere against foreign invasion is the conference's most important business.

Roosevelt Kin Goes to Altar

Sally Clark, sister-in-law of John Roosevelt, shown with George Xavier McLanahan of New York city who she married Dec. 3, at Emanuel Episcopal church in Boston. Miss Clark's sister, the former Anne Lindsay Clark, was married to the President's son June 18.

Yule Crowds Swell Rail Traffic

Special trains began running throughout the nation Dec. 24 to accommodate thousands of Americans going "home for Christmas." Railroads accommodated the largest Yuletide rush since 1929. Photograph shows Christmas crowds in the Chicago Union station awaiting departure for homes throughout the nation.

Maps Trade Drive

Job-making plans for 1939 were outlined by leading industrialists in New York Dec. 7, when the National Association of Manufacturers opened its annual convention. Charles Hook of Middletown, Ohio, president of the association, was among the chief speakers.

It's Tommy Again!

Hitting the comeback trail, Tommy Farr, British heavyweight champion, tangled at New York's Madison Square Garden Dec. 16, with Lou Nova of San Francisco in a 15-round bout. Farr lost the decision.

Britain Leaves Eire

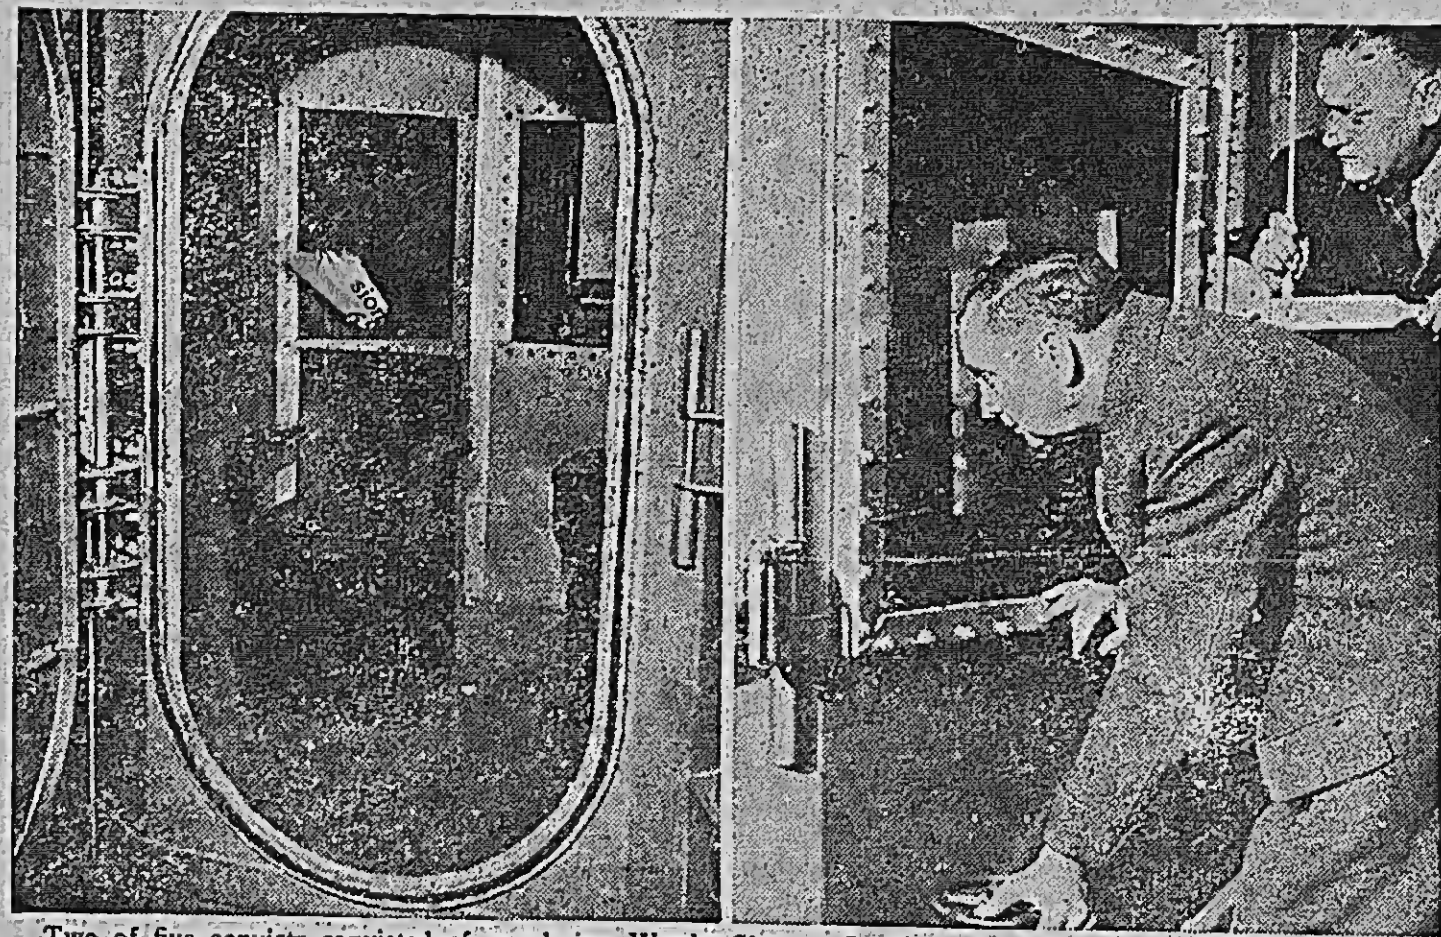

Great Britain surrendered her last vestige of control over the 26 counties of Eire (Ireland) Dec. 23, when she renounced treaty rights held since 1929 over three Irish ports including Lough Swilly, shown on map. Ulster, shown in black, constitutes the empire's sole remaining territory on the island.

On 'Appeasement' Mission

Lord Halifax, British foreign secretary (left, and Prime Minister Neville Chamberlain, who will arrive in Rome next Wednesday for diplomatic conversations with Premier Benito Mussolini. Foreign observers predict the Englishmen will continue their policy of "appeasing" European dictators, and that the current visit will result in France's partial capitulation in Italian territorial demands in the Mediterranean as the price of continued peace.

California Death Chamber Gets First Test

Two of five convicts convicted of murdering Warden Clarence Larkin in the Folsom prison riot of September, 1937, went to their deaths Dec. 2, in the new lethal gas chamber in California's San Quentin prison. The other three convicts were executed on successive Fridays. Left view shows the chamber's interior, while at the right San Quentin's Warden Court Smith inspects the new device.

White House Greet New Foreign Envoys

Pictured here are six of the seven new foreign envoys to the United States who were officially welcomed at the annual White House diplomatic reception Wednesday December 14. Upper row, left to right: Count Rene Doyne de Saint-Quentin, French ambassador; Mario de Pimentel Brandao, Brazilian ambassador, and Dr. Miguel Lopez Pumarejo, Colombian ambassador. Lower row: Robert Brennan, Irish minister; Dr. Hu Shih, Chinese ambassador, and Radu Irimescu, Rumanian minister. Not pictured is Mahmoud Hassan Bey, new Egyptian minister.

FDR in Traditional Ceremony

Extending his annual Christmas greeting to the nation, President Roosevelt lighted Washington's community Christmas tree in Lafayette park Dec. 24, providing the signal that illuminated thousands of similar trees throughout the country. Photograph shows the President at last year's ceremony.

Stuhldreher Speaks

Harry Stuhldreher, football coach at the University of Wisconsin was among speakers at a National Collegiate Athletic association's annual convention which opened last Wednesday at the Hotel Sherman in Chicago. The conference made rule changes for the 1939 football season.

P. T. A. to Hold Meeting Next Monday Evening

The first meeting of the Antioch Parent Teacher association for the new year will be held Monday evening, Jan. 9, at 8 o'clock in the Grade school.

Mrs. Marian Rigby will lead a discussion on "Movies and the Radio in Regard to Leisure Time." Those attending will be expected to join in the discussion.

Entertainment will be furnished by the Grade school band.

Fire Damages Auto

Damage amounting to \$25 to a car owned by Mrs. Lucille Wallace, Lake Villa, resulted when it caught fire Saturday evening in Kenosha from antifreeze leaking from a broken hose.

Sequoits to Meet Grant Here Friday

(By Scoop)

The Antioch Sequoits will meet Grant Community high here at the local gymnasium Friday night in their third conference start. So far this year the Sequoits have managed to break even by winning one game and dropping the other to their old rival from Gurnee. This will be the Sequoits' first start since their defeat at the hands of the Alumni of Antioch High Dec. 26.

Triplet Calves

Triplet calves were born to a Holstein cow on the Math Freund farm near Solon Mills, Ill., recently. Only one of the triplets lived.

Campfire Musings

(By Jack Hoag)

America is the richest country in the world. Alaska alone in the wealth of its mineral deposits and standing timber exceeds that of any other country. The Klondike gold craze only scratched Alaska's surface. There still remains rich deposits of gold, copper, zinc and iron that are almost beyond the human mind to estimate. These deposits lie under the surface of government owned lands and really belong to the people of the United States. They are part yours and part mine.

For many years certain corporations and other vested interests have secured control of government owned property and stripped it of its wealth. The lumber barons maintain at Washington the highest paid lobby in the world. If we could pry the government lid off the kettle so that these barons could get even a finger grip on our forests we could have on deposit in any bank we named \$1,000,000.00 tomorrow morning. These lumber interests are well organized and amply financed. They are opposed by a group of Federal officers and intelligent private individuals who are well organized but not well financed. With most of them "Conservation" is a labor of love.

In the fall of 1937 a rumor drifted through the Forest Department that a bid was being considered for 140,000 acres of heavily timbered country located in the Mount Olympus National Park. This tract of land contained roughly six billion board feet of timber. Of this 755,000 board feet was Douglas fir, 282,000,000 board feet of Sitka spruce and 399,000,000 board feet of western juniper, to say nothing about the hemlock and other woods that lumbermen call pulp. The bid was one of the lowest ever made for such a tract of land. It was so low that it was a joke and yet, due to a powerful lobby, it was being considered. Great cats! What a steal!

Then the Conservation and Federal officials woke up. Don Peattie wrote a fine article in The North American Review and the fight was on. The Conservationists won and in June 1938 President Roosevelt signed an Act creating the Olympic National Park which contains about 634,000 acres and effectively protects this timbered area forever. Now read this and remember it. A National Forest is a tract of land controlled by certain officials who are empowered to lease the land for grazing purposes, sell the standing timber, or do what they please with it subject to certain elastic restrictions. A National Park is a tract of land owned by the public and reserved for public use. Only wild life is permitted to graze there and not one tree can be cut down or a stone removed without a special act of Congress. Do you get it? The lumber interests do and they fight the National Park Board tooth and nail.

These National Forests are yours. What did you do to protect your property? Not a thing! The chances are that you did not know a thing about it. These forests, mineral deposits and land belong to you and your children. Your ancestors fought and some of them died to secure them for you. They are a part of your "American Heritage." If you had deposited a sum of money in a bank when your son was born and had added to it each year, and you heard that the Bank was to be robbed the next night, you'd say, "Like Heck it is!" grab up old Betsy, or whatever you call your favorite gun, and make tracks for the Bank to protect your money.

Now if you read that a tract of government land is going to be disposed of to private individuals or corporations what are you going to do? If you are sensible you will grab a pen and a piece of paper and write, or wire, your Congressman protesting against the sale. Then you will visit your friends and neighbors and get them to add their protest to yours. Don't be afraid to start something! You are protecting your own property, and some Congressmen need to be reminded once in a while that they are supposed to work for the best interests of those who elected them.

But! Some of you will say, "Why bother me about trees out in the state of Washington? There's lots of trees!" But are there? China has foolishly exhausted its supply of lumber and is purchasing American timber in enormous quantities. Japan is importing Port Orford cedar at a rate that will exhaust America's supply unless Congress acts to stop it. Alaska cedar and cypress are in great demand and are going fast. Coulter pines, Engelman spruces, Monterey cypresses, Carolina pines and New England's sugar maples are steadily disappearing and they are not being replaced.

A forest is like a bank account. You can't take out more than you put in. Your banker honors your checks as long as your money lasts. Then he looks blank, and stops. What else can he do? You can deposit more money in a bank quickly. It takes years to grow a tree. Trees are of great value to a farmer. They provide reservoirs of moisture. Protect your own property! When you cut down a tree plant two. It pays well!

Largest Crater in World
A mile in diameter and several hundred feet deep, the crater of the volcano Pons, in the republic of Costa Rica, is the largest in the world.

Navy Seeks Air Base in Alaska

Plan Would Give U. S. Aerial
Domination Over 2,000
Miles of Water.

WASHINGTON.—President Roosevelt, acting on the recommendation of high navy officials, may ask Congress next session for an appropriation to start development of a powerful fleet air base in Alaska to complete this country's Pacific "aerial frontier."

The proposed Alaskan base, long desired by the navy department, theoretically would give the United States complete domination of the air over a 2,000 mile stretch of water from the Aleutians to the Hawaiian Islands, establishing a battle theater nearly 2,500 miles from the American West coast in event of a Pacific war.

Sitka, Alaska, was officially designated a fleet air base more than three years ago, but development has been exceedingly slow and at present it will accommodate only six or seven airplanes.

Prefer Kodiak Island.

The proposed new base would probably be on Kodiak Island, and the navy department is anxious to make it the equal of such powerful stations as Pearl Harbor, Hawaii, and Coco Solo, Panama Canal Zone. A board of navy strategy experts was appointed recently to study necessity for new naval shore stations and it is understood that the Alaskan question is being given special consideration.

Some ranking navy officers are convinced that this country should have a naval fueling and repair base in Alaska, also, and it is probable that this will be studied closely in connection with the proposed air base.

At the same time the war department has tentative plans for fortification of some of the Aleutian Islands with long-range coast defense guns. Both of these latter projects would require huge expenditures and in all probability will not be undertaken until the fleet air base is completed, if at all.

Improved Defenses.

However, the recent dispatch of 68 navy patrol planes for maneuvers in the Alaskan area is generally regarded here as an indication of imminent improvement of the Alaskan defense system. This was the largest number of navy patrol planes ever sent to Alaska for summer maneuvers.

Some naval experts do not consider Sitka ideally located for a fleet air base and are urging its abandonment, except as a possible advance or auxiliary base, in favor of the Kodiak site, easy to defend and difficult to attack. It is likely that Dutch harbor also may be designated as an advance air base.

The strategic importance of Alaska in the United States national defense system is rapidly increasing due mainly to the growing flying range of airplanes. Military experts point out that the entire Northwest and Pacific coast industrial sections of the United States could be wiped out by enemy aircraft carriers from anchorages in northern waters.

'Flyer' Stays on Floor In 27,000-Foot 'Ascent'

CHICAGO.—A passenger was taken for a "ride" 27,000 feet "up" into the stratosphere and "down" again without leaving the floor of a toolshed at the Chicago Municipal airport.

W. W. Davies, research engineer for the United Air Lines, has designed a gray-steel apparatus resembling a boiler that makes possible reproduction of conditions which high-flying aviators face in the stratosphere. Because of the growing interest in high-altitude flying it became necessary to obtain detailed information on the performance and reactions of human beings and equipment in the thin atmosphere of the stratosphere and stratosphere, four or more miles above the earth's surface. Actual flights are expensive and time consuming. Hence, Mr. Davies' boiler-like stratosphere machine.

Sensations, reactions—everything but high-altitude temperatures—are duplicated in the air-tight tank. In it Mr. Davies has gone "as high" as 20,500 feet, all inside the tool shed. His device is being used chiefly to develop the oxygen equipment needed in high-altitude travel.

Idle Got Vacations
LONDON.—Vacations for unemployed men and women are to be provided by many benevolent organizations of England.

Old Deed Gives Title To a Property 'Steak'

ROCHESTER, N. Y.—Two time-worn deeds, one 89 years old and the other 77 years old, have been filed in the county clerk's office.

The yellowed documents were discovered by a woman while going through a bundle of old legal papers left by her father. One of the deeds, in setting forth the boundary lines of a farm, referred to property stakes as "steaks."

At Wheat Parley

Joseph P. Kennedy, United States ambassador to Great Britain, is chairman to the international wheat advisory committee which will begin its deliberations in London next Tuesday. The last world wheat conference, held in July, postponed action on a proposed quota system for marketing surplus wheat. Since that time world surpluses have increased considerably.

GABBY GERTIE

"Devastation in the timber region" is handled effectively by the application of appropriate relief methods.

Honors for Henry Clay
Unconstitutionally Henry Clay became a senator of the United States before he was 30 years of age. He was also accorded the honor of becoming speaker of the house of representatives his first day as a member of the house. The honor, previously, had been given only to representatives who had served long and well in the house.

Byron Wrote Speedily
Lord Byron, the English poet, was one of those fortunate beings to whom genius came easily, and was therefore little appreciated. He wrote the book, "The Corsair," in 10 days, the "Bride of Abydos" in four days, and another while undressing after balls and masquerades.

Buffalo, Natural Engineer
The American bison, or buffalo, was one of the best natural engineers ever known, says the American Wildlife Institute. They were such good surveyors that humans seeking a way for railroad lines to cross the plains followed the old buffalo trails for many miles—without being able to improve the grade.

Steam for Blowing Engine Whistle
You might think that little energy is needed to blow a locomotive whistle. But you would be wrong, because train whistles use a considerable amount of steam. An expert has computed that 2,434,028 tons of coal are needed to raise the steam for blowing locomotive whistles every year.

Famous Last Words
When Sir Walter Raleigh was beheaded by King James, he was cheerful and resolute to the last. As he was led to the scaffold, he asked to see the ax, and touching its edge, remarked: "This is sharp medicine, but it is sure cure for all diseases."

Antioch Lances Win One, Lose One

The Antioch Lances independent basketball team played two hard fought games here Monday night, both against teams from Waukegan. In the first game the Lances, led by Osmond, walloped Barrett A. C. 25 to 13.

In the second game the local boys battled furiously against Roberson's Boosters, only to be defeated in the last two minutes, 34 to 31. The Lances, due to injuries, were without substitutes and the regulars had to play both games without replacements. In this game King led the scoring for the Lances by sinking 8 field goals. Ambrose of Waukegan was high scorer of the game with 18 points.

Freaks of Lightning
Lightning has traveled down a hole of ore and shocked miners working at a depth of 1,000 feet; it has removed all the hair from a man without injuring him in any other way; and it has altered the compass of a stern-struck ship. In this last case, says Collier's Weekly, the vessel itself was also "reversed" by the storm and the wheelman steered back over his course for a considerable distance before realizing the error.

Southerners as "Yankees"
At the time of the Revolution, more especially during the War of 1812 when privateersmen, sailing out of Charleston and other southern ports, were particularly successful and feared, they were referred to by the British as the "damned Yankees."

Land With 150,000 Islands
If you are asked in an intelligence quiz, which country has a coastline of 12,000 miles and along that coastline 150,000 islands, there is only one answer—Norway.
